# Software Engineering II - Software Design Studio

## Scrum Summary

**Date:**      **9/29/2020**                          **Name:Akeem Heshimu**

What was planned (JIRA #): JIRA #15

What was accomplished (JIRA #):In JIRA #15 I accomplished in making sure the hmtl design and php files are working properly causing less buggy issues then I discovered last time. Last time there was a bug that caused our logo picture to increase in size and I had to manually go in there an edit the picture size, it took quite a while to get it to return to normal size
